Experience

INTERNATIONAL FLOWER DISTRIBUTORS: PHP DEVELOPER, DURHAM, NC — 2016

Updating site, adding new features to help IFD members search and sort through inventory.

GEEK MOMS AND CO: PHP/WORDPRESS DEVELOPER, DURHAM, NC — 2016

Working to make site responsive, mobile friendly, and creating custom Wordpress plugins.

WIFIERX: PHP DEVELOPER, DURHAM, NC — 2015-PRESENT

In charge of creating campaign management software for clients using WiFierX hardware. Set up virtual environments on Mac and Unix operating systems, updated Laravel based site. Used project management and tracking tools such as Jira, Trello, and Slack to communicate with my team.

COMMUNICANT: RUBY ON RAILS DEVELOPER, DURHAM, NC — 2015-PRESENT

Used Agile methodology to lead a development team in order to build a complete, open source application, providing a safe and effective way for divorcing parents to communicate. Applied knowledge of Ruby/Rails, Git, TDD, jQuery, APIs, ERDs, and PostgreSQL. Made use of waffle.io, and Slack to create and assign tasks for each developer in order to get our product to MVP within a short time line.

HACIX, INC.: JUNIOR PHP DEVELOPER, MIAMI, FL — 2010-2015

Tested and developed software using PHP.

Learned and applied knowledge of beginning front-end design, Python/Django/MySQL/JavaScript.

Wrote and edited technical documentation for new projects involving networks/routers and mobile applications. Held starting position as administrative assistant, where I handled remote technical support duties for contracted projects.

ONENEWS: SOFTWARE TESTER , CHARLOTTE, NC — 2009-2010

In charge of software testing and light debugging using PHP.

Helped to maintain technical documents, and update as needed for the development team.

Education

The Iron Yard, Durham, NC — Back End Development: Ruby on Rails Track

Simmons College, Boston, MA — Gender and Culture

UNC-Charlotte, Charlotte, NC — Sociology/Biology
